EVERY FLIGHT STARTS ON THE GROUND

Our potential as a company is our potential as a human team, and the key to success. This is how we understand work at Mecanizados Íñiguez since we founded our company in 1998. Now, on a day-to-day basis, we endeavor to maintain the passion, motivation, and devotion in our team to offer the best of us.

Our ambition to become better professionals each day is the engine that drives our company. We promote a culture of discipline and commitment, respect, integrity, and an essential balance between customer proximity and high demand.

We are passionate about well-done work, trusting in teamwork as the path to excellence. More than 20 years leading the service of machined aerospace parts positions us as a quality and delivery benchmark in this industry.

OUR MISSION

Bring value to our customers' supply chain through innovation, quality, and responsiveness to customer needs.

OUR VISION

Become a strategic supplier for our clients.

OUR KNOW-HOW, THE KEY TO OFFER THE BEST SERVICE

Over 20 years of experience in the aeronautics industry, and the perfect combination between our machinery plant and the latest generation and market-leading manufacturing software, allows us to offer services that really meet our customers' expectations.

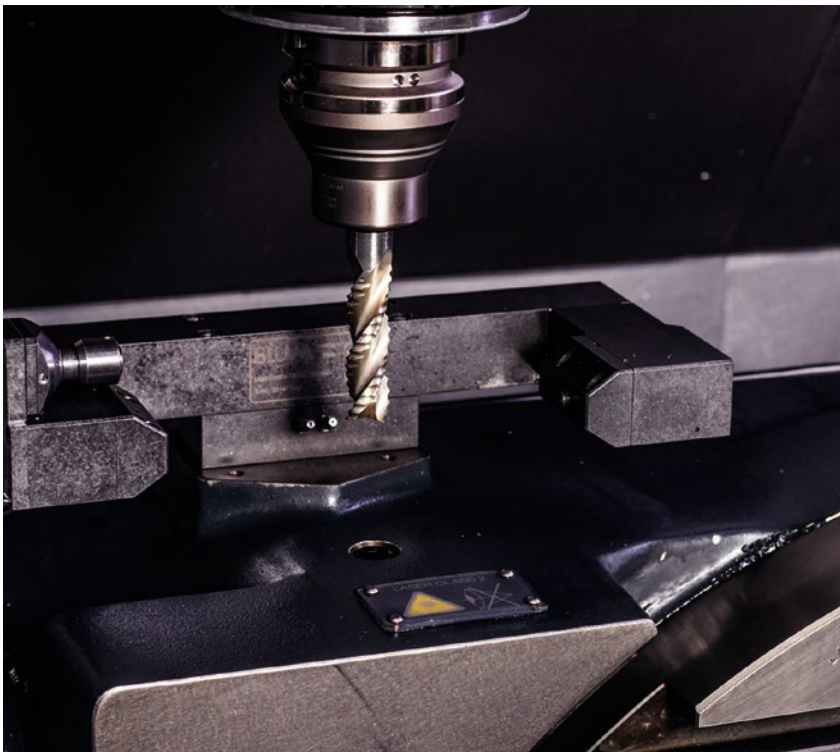

We offer CNC machining services, tooling design and manufacturing, in-house manufacturing, 3D testing, final processes, and Surface treatments.

CONSTANT IMPROVEMENT FOR SERVICE EXCELLENCE

We are a Seville-based company specialized in the machining of metal parts for the aeronautics industry. We have specialized machinery for manufacturing aluminum, steel and titanium parts with 3 and 5 axis technologies, and revolution-shaped parts.

We offer our clients both machining services and comprehensive management of ready-to-assemble products.

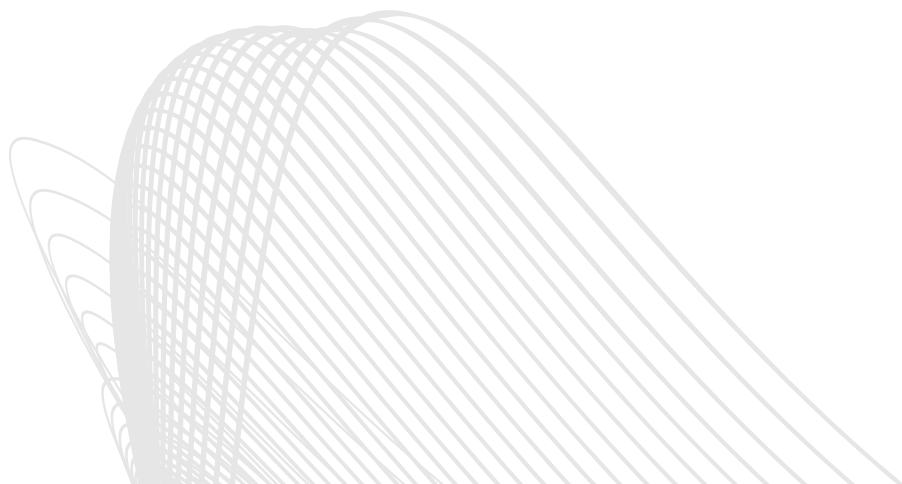

Our focus on management drives us to constant growth and improvement, offering our clients a high standard of service to operate in a global context.

WE WORK FOR OUR CLIENTS

Our pursuit of excellence in our service is the key to our customers' satisfaction. Therefore, we put all our resources to meet the expectations of each project.

Our hard, quality work has provided us the trust of all types of customers, regardless of size, who have chosen us for our commitment and know-how.
